

PIXMA® MX7600 Office All-in-One

Premium Office All-in-One Featuring Superior Photo Quality and Crisp Text on Plain Paper.

- New pigment ink system “PgR” allows superior overall print quality on plain paper
- Rapid document copying and scanning with 35-sheet auto duplexing Automatic Document Feeder (ADF)
- Photo lab quality borderless 4” x 6” photo in approximately 43 seconds¹
- Fast Super G3 Fax² with memory for up to 100 speed dial locations and 250 incoming pages³

The Difference is Clear

Give your customer’s business a competitive advantage. Print professional quality documents, photos, presentations, and promotional material on plain paper, thanks to Canon’s revolutionary ‘clear-ink’ printing technology.

What it Does

It uses a new clear ink before applying pigment inks when printing on plain paper. Fixing the pigment to the surface of the paper enables the printing of high-definition text, graphics and photographs on plain paper and ensures that the final product will be long-lasting and water-resistant.

Duplex ADF Auto Duplex Print

Advanced Duplex Functionality

Increase productivity, and save time! Copy and scan up to 35 sheets with the built-in, high speed Auto Duplex Auto Document Feeder. The MX7600 and print & copy 2-sided documents, or copy & scan from 2-sided originals.

4” x 6” Photo

Auto Image Fix

Print

Borderless, lab quality 4” x 6” photos are ready in approximately 43 seconds.¹

Easy Photo Printing: Print directly from digital cameras or memory cards.⁴ Auto Image Fix and Easy PhotoPrint EX take the guesswork out of photo printing, by automatically analyzing and correcting images, then printing them in a few easy steps.

D.C.G. Processing Technology

Copy

Dual Color Gamut Processing optimizes copy quality, making sure that they are faithful representations of the original in color and detail. Even copies of a copy look great!

Smart Copy Features: Save paper & file space with 2-in-1 and 4-in-1 copy. Fit oversized originals onto one page with Fit-to-Page.

SCAN

4800x9600dpi

Scan

The CIS (Contact Image Sensor) used in MX7600 scans documents & photos at a maximum optical resolution of 4800 x 9600 color dpi, for optimum quality in color and detail.

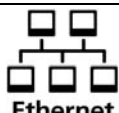

Added Security: Your customer can also manage and protect sensitive company information with the included MP Navigator EX software. They can limit viewing or edit / print access by adding password protection to the PDF files they create.

FAX

Super G3 Fax

Your customers can easily keep in touch with clients at fast 3 seconds/page transmission speeds, with memory for up to 100 speed dial locations and 250 incoming pages.^{2/3}

Ethernet

Networking

Built-in Ethernet connectivity gives your customers the ability to share the MX7600 with everyone in their network.

Close the Sale

Canon's attention to detail is apparent when it comes to the beautiful design and advanced functionality of the PIXMA® MX7600 Office All-in-One. Thanks to Canon's exclusive **Pigment Reaction Technology**, your business customers can create sharp, professional looking promotional materials, **on plain paper**, without bleeding or curling. The MX7600 produces documents rivaling color laser printers, without taking up as much space or consuming as much power, and adds full **photo printing** functionality. Your customers can save time and storage space with **2-sided printing, copying & scanning**. The 35-sheet **Auto Duplex ADF** can copy & scan 2-sided documents automatically. The MX7600 then adds other premium office features, such as integrated **networking**, software **security**, a Super G3 fax, and **Quick Start**. Introduce your business customer to the newest member of the Premium Office All-in-One family, the MX7600.

[PIXMA MX7600 Detailed Specifications](#)

1 Photo print speeds are based on the standard mode driver setting using photo test pattern(s) and select Canon Photo Paper. Print speed is measured as soon as first page begins to feed into printer and will vary depending on system configuration, interface, software, document complexity, print mode, types of paper used and page coverage. See www.usa.canon.com/printspeed for additional information.
2 The Public Switched Telephone Network currently supports fax modem speeds of 22.8 Kbps or lower, depending on telephone line conditions. Sending and receiving fax machines need to conform to ITU-T v.34 guidelines.
3 Page count is based on ITU-T No. 1 chart or CANON FAX Standard Chart No. The Public Switched Telephone Network currently supports fax modem speeds of 22.8 Kbps or lower, depending on telephone line conditions. Sending and receiving fax machines need to conform to ITU-T v.34 guidelines.
