

Ultimate Wireless¹ Photo All-in-One with 3.8" LCD and Built-in Auto Duplex Printing

The PIXMA® MP990 Photo All-in-One offers the home or office the quality of a personal digital darkroom and an office workhorse in one inkjet device.

- Six individual ink system featuring gray ink for professional-looking black & white photos.
- Scan film and slides with included Film Adapter Unit.
- Save paper with Built-in 2-sided printing.
- Professional color adjustment feature with the included Easy-PhotoPrint Pro.²

Professional-looking Black and White Photos

For truer black & white photos, the MP990 features a separate gray ink which reduces graininess and produces a stable gray tone.

Preserve Memories and Reduce Energy Cost

The MP990 offers advanced scanning capabilities. It can scan 35mm film & slides, and scan directly to memory cards or flash drives. With a high-luminance White LED, the MP990 is ready to scan documents with no warm-up time, and saves energy by quickly switching to Standby mode after scanning.³

Advanced Paper Handling

Customers can save paper by printing **2-sided documents**. They can keep two sizes or types of paper loaded and ready in the MP990's **two paper trays**, which can hold up to 300 sheets of plain paper for large print jobs.

Wireless¹ and Wired Networking

Printing and scanning can be managed from the living room, the study, the kitchen, or from any other part of the house without cable connections. Also supports wired LAN.

Enhanced Photo Features

Preview and edit images before printing using the extra-large **3.8" LCD**. Automatically enhance images for brightness or contrast, and even correct red-eye with **Auto Photo Fix II**. Easily print photos in various styles with the included **Easy-PhotoPrint Pro** plug-in for Adobe Photoshop.² Customers can "tap their way" to great looking, wireless photo prints from their iPhone or iPod Touch using **Easy-PhotoPrint for iPhone**.²

Professional thickness, glossy feel and incredible range of colors for unparalleled home-made professional prints.

Why Choose the MP990

Over the HP Photosmart Premium Fax AiO

- Print professional quality black and white photos with 6-color ink system, including gray ink.
- Preserve memories for generations: photos last up to 300 years in archival album with ChromaLife100+.⁶
- Reprint or store precious memories: scan up to six 35mm film or up to four 35mm slides. View, edit, and print photos without a computer using the extra large 3.8" LCD screen.

Over the Epson Artisan 810

- Excellent photo quality with true color and fine details. Maximum 9600 color dpi with microscopic droplets as small as 1 picoliter.⁷
- Easily navigate through menu options using the intuitive Easy-Scroll Wheel.
- Easy scanning: Auto Scan Mode automatically identifies the type of original then scans and saves with appropriate settings.⁸

Connectivity		
Memory Cards, USB Flash Memory ¹¹ PictBridge, Camera Phone Printing Bluetooth (Optional), IrDA ⁵ Wireless ¹ & Wired Networking	Memory Cards, USB Flash Memory, PictBridge Bluetooth (Optional), Fax Wireless & Wired Networking	Memory Cards, PictBridge Bluetooth (Optional), Fax Wireless & Wired Networking

¹ Wireless printing requires a working Ethernet network with wireless 802.11b/g capability. Wireless performance may vary based on terrain and distance between the printer and wireless network clients. For IEEE 802.11n: transmission rate will be limited to IEEE802.11g and will operate in the 2.4GHz frequency band.
² System requirements vary by application. Easy-PhotoPrint Pro is available as a plug-in. Some drivers may require download from www.usa.canon.com. See www.canontechsupport.com for updated compatibility.
³ The time required for the light source to reach sufficient operating temperature. Film scanning excluded.
⁴ ISO/IEC 24734, 24735 define the default print and copy speed measurement methods. Print speeds are the averages of ESAT in Office Category Test for the default simplex mode, ISO/IEC 24734, excluding time to print the first set. Copy speed is the average of FCOT, ISO/IEC 24735 Annex D. ADF copy speed is the average of ESAT in General Performance Test for the default simplex mode, ISO/IEC 24735, excluding time to copy the first set. See www.usa.canon.com/imp for additional details.
⁵ IrDA: Requires mobile phone or other device with IrDA port and phone positioned no more than 7.9 inches from the printer. Bluetooth: Requires mobile phone (or other device) equipped with Bluetooth technology v2.0 and optional Canon Bluetooth Unit BU-30. Bluetooth operation depends on the device and software version used. Operating distance is approx. 10 meters but may vary due to obstacles, radio signals, locations where radio interference occurs, magnetic fields from microwave ovens, device sensitivity and/or antenna performance.
⁶ Based on accelerated testing by Canon in dark storage under controlled temperature, humidity and gas conditions, simulating storage in an album with plastic sleeves. Canon cannot guarantee the longevity of prints; results may vary depending on printed image, drying time, display/storage conditions, and environmental factors. See www.usa.canon.com/chromalife100plus for additional details.
⁷ Resolution may vary based on printer driver settings. Color ink droplets can be placed with a horizontal pitch of 1/9600 inch at a minimum.
⁸ Auto Scan Mode is only available when scanning at a computer using MP Navigator EX software and selecting the 1-click feature then "save to PC".
⁹ Photo print speeds are based on the standard mode driver setting using photo test pattern(s) and select Canon Photo Paper. Print speed measured as soon as first page begins to feed into printer and will vary depending on system configuration, interface, software, document complexity, print mode, types of paper used and page coverage. See www.usa.canon.com/printspeed for additional details.
¹⁰ Optical resolution is a measure of maximum hardware sampling resolution, based on ISO 14473 standard.
¹¹ Memory Cards: Compatible memory cards include SD™ Memory Card, SDHC™, MultiMediaCard® (v4.1), CompactFlash® Card, Microdrive®, Memory Stick®, Memory Stick PRO™, Memory Stick Duo™, Memory Stick PRO Duo™, and MultiMediaCard Plus (v4.1). The following can be used with the addition of a special adapter sold separately: miniSD™ Card, RS-MMC™ (v4.1), microSD™ Card, xD-Picture Card®, xD-Picture Card (Type M), xD-Picture Card (Type H), miniSDHC, and Memory Stick Micro. USB Flash Memory: USB flash with security enabled not be used. Requires an extension cable if cannot be attached.
