

PIXMA® iP3600 Photo Printer

Remarkable Photo Printer with Individual Ink Tanks and PictBridge.

- ChromaLife100+ system delivers vibrant photos that last up to 300 years.¹
- Maximum 9600 x 2400 dpi with microscopic droplets as small as 1 picoliter using FINE Technology.²
- Easy-PhotoPrint EX software with enhanced Auto Photo Fix easily removes red eye.
- 2-Way paper feeding for convenient plain and photo paper handling.

Vibrant, Long-Lasting Photos

ChromaLife100+ prevents fading when printed on select Canon Photo Papers using genuine Canon inks. With ChromaLife100+, photos will last up to 300 years in an archival album, 30 years in a glass photo frame, and 20 years out in the open.¹

High Photo Quality & Speed

FINE Technology produces high resolution photos at high speeds every time. Print borderless photos in sizes from 4" x 6" to 8.5" x 11".³ Lab quality 4" x 6" photos can be printed in approximately 41 seconds.⁴

Photo Enhancing & Printing Made Easy

Easy-PhotoPrint EX with Auto Photo Fix makes enhancing and printing photos easy and fun. Auto Photo Fix takes the guesswork out of printing great photos. It automatically detects the type of photo being printed - portrait or scenery - and helps to correct red eye, facial tones, brightness, contrast and color saturation. Easy-PhotoPrint EX prints photos in a few easy steps in a variety of different layouts.

Direct Printing

Print directly to the iP3600 from a PictBridge-compatible digital camera, DV camcorder or camera phone.⁵

Advanced Paper Handling

Two paper trays hold photo paper and plain paper, so customers do not have to switch paper between different types of printing. Or, they can load more plain paper for those larger print jobs.

Know Your Customer

If your customers want:

- An easy-to-use photo printer that doesn't cost a lot to buy
- An individual ink system to reduce waste and save operating costs
- Easy photo enhancing features within simple photo printing software
- Laser quality text combined with high resolution photographs

...then recommend the PIXMA® iP3600 Photo Printer.

Genuine Canon Photo Papers

Choose from a variety of types of photo paper, from semi-gloss, to glossy, to all occasion greeting cards. Canon offers a variety of sizes ranging from 4" x 6" through 8.5" x 11". Use genuine Canon photo papers for photos that will last up to 300 years in an archival photo album when used with Canon genuine inks.¹

Perfect Partners

A Canon PowerShot digital camera is a terrific add-on for customers who don't have a digital camera, or who want to replace their current camera. A sleek, easy-to-use LiDE scanner for documents or photos also would be a good suggestion.

Sales Tip!

The Creative Park website from Canon has stationery, greeting cards, 3D paper crafts and more, for hours of fun! The more your customers print, the more ink and paper they'll need from you, so encourage them to check it out and visit often.

PIXMA iP3600 Photo Printer Product Tour

1 Based on accelerated testing by Canon in dark storage under controlled temperature, humidity and gas conditions, simulating storage in an album with plastic sleeves. Canon cannot guarantee the longevity of prints; results may vary depending on printed image, drying time, display/storage conditions and environmental factors. See www.usa.canon.com/chromalife100plus for details
2 Resolution may vary based on printer driver setting. Color ink droplets can be placed with a horizontal pitch of 1/9600 inch at minimum.
3 Supported paper types for borderless printing are as follows: Photo Paper Pro II, Photo Paper Plus Glossy II, Photo Paper Plus Semi-gloss, Glossy Photo Paper and Matte Photo Paper.
4 Print speed measured as soon as first page begins to feed into printer and will vary depending upon a number of factors. See www.usa.canon.com/printspeed for additional information.
5 Requires mobile phone equipped with PictBridge technology and a USB cable.
