¹ Prices are MSRP at time materials created and do not reflect any applicable rebates. Actual prices are determined by individual dealers and may vary. Prices subject to change at any time without notice.

² ISO/IEC 24734 define the default print speed measurement methods. Print speeds are the averages of ESAT in Office Category Test for the default simplex mode. ISO/IEC 24734, excluding time to print the first set. See www.usa.canon.com/ipm for additional information. Photo print speeds are based on the standard mode driver setting using photo test pattern(s) and select Canon Photo Paper. Print speed is measured as soon as first page begins to feed into printer and will vary depending on system configuration, interface, software, document complexity, print mode, types of paper used and page coverage. See www.usa.canon.com/printspeed for additional information.

³ Supported paper types for borderless printing are as follows: Photo Paper Pro Platinum, Photo Paper Pro II, Photo Paper Plus Glossy II, Photo Paper Plus Semi-gloss, Photo Paper Glossy and Matte Photo Paper.

⁴ Resolution may vary based on printer driver setting. Ink droplets can be placed with a horizontal pitch of 1/4800 inch or 1/9600 inch at minimum.

⁵ IrDA: Requires mobile phone with IrDA port and support for IrMC version 1.1 protocol, with phone positioned no more than 7.9 inches from printer. Bluetooth: Bluetooth v1.1 with optional Canon Bluetooth Unit BU-10. Bluetooth operation depends on the devices and software version used. Operating distance is approximately 10 meters but may vary due to obstacles, radio signals, locations where radio interference occurs, magnetic fields from microwave ovens, device sensitivity and/or antenna performance.

⁶ System requirements vary by application. Easy-WebPrint EX is compatible with Microsoft Internet Explorer 7 and Internet Explorer 8 (32 bit versions only) in Windows 7, Vista or XP only, is not included on installation CD, and requires Internet connection during installation. Easy-PhotoPrint Pro not included on installation CD for iX7000 and requires Internet connection during installation. See www.canontechsupport.com for updated compatibility.
