

Setting up email on your BlackBerry® Storm™ 9530 smartphone

If you have not already set up an email address, you can use one of the following options to set up email. Depending on your wireless service provider, the available options might vary.

BlackBerry® Internet Service option

Use this email setup option to create a new email address for your device or to associate your device with one or more (up to ten) existing email addresses. This option is most common for individual users. You can set up email using this option by selecting the **I want to create or add an email address** option in the Setup Wizard on your device.

BlackBerry® Enterprise Server option

Use this email setup option to associate your device with a Microsoft® Outlook® work email account, IBM® Lotus Notes® work email account, or Novell® GroupWise® work email account and to take advantage of advanced capabilities for wireless data synchronization. If your administrator has provided you with an activation password, you can set up email using this option by selecting the **I want to use a work email account with a BlackBerry Enterprise Server** option in the Setup Wizard on your device. If you do not have an activation password, contact your administrator.

BlackBerry® Desktop Redirector option

Use this email setup option to associate your device with a Microsoft Outlook (Workgroup Installation) email account. You can set up email using this option by installing the BlackBerry® Desktop Software and selecting the **BlackBerry Desktop Redirector** option. If you use this email setup option, you must keep your computer turned on to receive email messages.

Add or create a BlackBerry Internet Service email address using the Setup Wizard.

- 1 In the **Setup Wizard**, on the email setup screen, select the **I want to create or add an email address** option.
- 2 **Click Next**. If necessary, **click Update Now**.
- 3 To accept the terms of the license agreement, select the **Yes** option. **Click I Agree**.
- 4 If you want to link an existing, supported email address with your smartphone, if necessary **click Add An Email Account**, or simply type in your existing email address and password then **click Next**.
- 5 If you want to create a new email address for your BlackBerry smartphone (i.e. username@vzw.blackberry.net), **click Create a BlackBerry email address** OR **click I would like to create a new BlackBerry email address**.
 - Type the user name that you want to appear before the @ sign in your new BlackBerry email address.
 - If necessary, type a password for this email address. If necessary, select or choose a secret question. Provide an answer for the secret question then **click Next**.
